

U.S. Embassy Dhaka

Instructions for Medical Examination of Immigrant Visa Applicants

United States Embassy
Dhaka, Bangladesh
Consular Section
Madani Avenue, Baridhara.
Dhaka -1212, Bangladesh.

Each immigrant visa applicant must be medically cleared by a physician approved by the U.S. Embassy before visa issuance, and must carry and present his or her medical examination papers at the Port-of-Entry.

Each immigrant is responsible for arranging his or her own appointment for a medical examination prior to the visa interview. This means that he or she and the accompanying family members are required to visit an approved physician at least three weeks prior to the visa interview appointment date. This will allow time for the examining physician to complete your report in time for your interview. All applicants must bring their passport, four photos (must be in color and taken against white background; eyeglasses must not be worn) of themselves, DS-260 confirmation page, vaccination card (if any) and interview letter/email copy to the medical exam appointment. The list of U.S. Embassy-approved physicians is below. You may visit any one of them, the choice is yours.

Green Crescent Health Services	International Organization for Migration (IOM)	Mercury Medical (ex. Wahab Medical)

U.S. Embassy Dhaka

You must pay the doctor's fee; the U.S. Embassy will not reimburse you. The doctor is required to issue you a receipt.

- **Basic Examination Fee** (includes physical examination, documentation, chest x-ray and radiology consultation, gonorrhea screening test, serologic test for syphilis, and review of immunization history):
 - Children (14 and below): BDT 3,340
 - Children (15-17): BDT 4,340
 - Adults (18 and above): BDT 9,104
- **Additional Fees:**
 - Additional chest radiograph (if required): BDT 500
 - Note: Any additional chest radiographs or laboratory tests required to clarify results compromised by performance or laboratory error must be performed at no extra charge to the applicant.
- **Sputum Testing and Treatment (if required):**
 - Series of three sputum samples testing for AFB: BDT 15,400
 - GeneXpert Test for MTB on one sputum sample: BDT 3,850
 - Six months DOT for drug-susceptible TB cases: BDT 60,000
- **Supplemental Vaccination Charges:**
 - Maximum Retail Price + BDT 300 (for administering the vaccine)

Please note that additional required vaccinations may increase the cost. In order to prove any infectious diseases or TB, you will be required to complete additional laboratory tests. Failure to appear within five (5) days of your medical examination for the tests may place an additional one year to process your case.

All immigrants must be vaccinated against infectious diseases. These immunizations are available from the approved physicians, and vary in cost. Immunizations may, on very rare occasions, cause undesirable side effects. You should consult with your physician about the risks and benefits of immunizations.

The panel physicians send your medical report directly to the Consular Section. It is important that you schedule your medical examination at least **twenty days** before your scheduled interview. Applicants whose completed medical examination reports are not available at the time of their interview will not be interviewed.

After successful completion of medical screening, applicants must collect their vaccination record and x-ray CD from their respected panel physician.

No immigrant will be admitted to the United States without a valid medical report. The expiration date of your Immigrant Visa will be exactly six months after you took your medical exam (except for applicants requiring sputum testing and treatment, where the validity may be shorter). Example: If you completed your medical exam on 15 November 2023, but your visa was not issued until 01 February 2024, your visa would still expire on 14 May 2024. Whether or not you should update your medical clearance depends on how soon after visa issuance you plan to travel to the United States.
