

Certificates Offered Through the School of Biological Sciences

Each certificate requires 12 credit-hours of coursework, including at least 9 credits at the 3000+ level. Courses required by name and number for a student's major program of study may not count towards a certificate. Students may not double-count courses towards more than one certificate or minor. Non-Biology majors will be required to include at least 9 credits of BIOL coursework within their certificate.
