Electrical Trade Test Preparation

This course is for the Electrician with an experience that would like to write his trade test. This will ensure you are prepared before writing the test by practically testing all aspects of the trade and identifying the gaps.

Course content	Trace a circuit of which the resistive components are not visible Wire a three-heat stove switch Perform a resistance calculation on a three-heat stove switch with various resistors as load Perform an acceptance test on a single – and three phase motor Perform a cable joint Wire a single phase forward – reverse motor starter (plug – in a panel and wiring panel)
Type of course	This is a practical course and the modules will be done in a fully equipped workshop.
Cost of course	R15 000 Plus, Administration Fee Price Includes: • Lunch • Learning material • Facilitation • SETA Learner uploading • SETA Learner registration

Trade test price not included	• Internal assessment • Internal moderation • Internal Certification • Transport to and from Kempton Park Transnet station as well as Rhodesfield Gautrain Station R3000
Course duration	This is a full-time course: 20 working days (4 Weeks) Monday – Friday Time: 09:00 – 16:00 Everyday
Admission requirements	Full electrical qualification with practical experience <i>OR</i> N1 and N2 with 3 years of practical experience <i>OR</i> 6 years of experience in the field with no formal qualification
Recognition of prior learning	If what you have learned at work, from other programs, courses, from life experience or training provided at work is relevant to this program, you may be entitled to gain subject credits or exemptions. An RPL (Recognition of prior learning) process is available for recognition and assessment of your skills. Relevant credits will be passed.
Qualifications	On completion of this course the student will earn the following: • Certificate of Completion
