

Fundamentals of Open Access

This session will be recorded

Slides and handouts will be
distributed after the session

Sarah Humphreys
Open Research Librarian (She/her)

Learning outcomes

1. Attain an understanding of Open Access, where it comes from and what it means to you
2. Understand how open access publishing works
3. Know a few tools you can use to help you find/publish open access
4. Understand some jargon terms and where to go if you find a new one

Problems with Jargon

The struggle with academic publishing

Reader
Pays twice
Public taxes, university student
fees etc.

Researcher & Reviewer
Aren't paid for their contribution
But will have to pay for access or
reuse

Publisher
Holds the
copyright **and**
nets the profits

Open Access – What is it?

Open access means **permanent, free access to research outputs for everyone**. All types of outputs, including journal articles, monographs, textbooks, research data, software, code, reports, and recordings of performances and exhibitions, can be made available open access.*

Reader
Pays
Nothing

The open landscape

Data

PrePrint

Aka: "Research before publication"

Monograph
Aka "Long form publication"

Open Educational Resources (OER)
Aka "Open textbooks"

"Short form publication"
Aka: Articles, conference proceedings

Benefits of open access

Contents of this slide reworked from:
[oaaustralasia.org/2021/03/23/benefits of open access](http://oaaustralasia.org/2021/03/23/benefits%20of%20open%20access)

More exposure for your work

Your research can influence policy

Practitioners can apply your findings

Taxpayers don't pay twice for research

Researchers in developing countries can access your research

Compliant with grant rules

The public can access your findings

Higher citation rates

Open Access – Video overview

https://www.youtube.com/watch?v=676J1M_gFg

Open Access publication

Method One

Via the Publisher

The publisher makes your research open access on their website.

They add a specific licence to your work to ensure it can be shared.

You can ALSO deposit the publisher's version!

Method Two

Via the Author

You publish the paper elsewhere BUT make your research open access by depositing your manuscript into a repository under a licence.

Readers can search for this item online to find your research free-to-read.

Repository:

A digital location which archives your research for posterity with metadata and preservation standards

Examples include:
EPMC, Oxford
University Research
Archive.

NOTE: Social media sites like academia.edu and ResearchGate are not repositories!

Publish OA via publisher – Jargon!

Gold
An open access journal

**Platinum/
Diamond**
An open access journal (no fee)

Hybrid
A traditional subscription journal with a fee to publish one article OA

Version of Record (VoR)

The version of your research after the publisher's copyedit.

Paywall

Payment barrier between your research and the reader. Usually a subscription charge

Paying APCs – Funds and grants

APC = Article processing charge

A payment made to the publisher to offset costs lost by publishing open access rather than with a subscription

Average:
£2-3,000
NOTE:
**Diamond/
Platinum

routes

Publisher agreements

Also called transformative agreements or read & publish deals

All publisher deals are actioned on the publisher side.

Do not apply for an APC payment if you're using a journal that is part of a deal.

- ✓ Oxford corresponding author(s)
- ✓ Use Oxford University email (ox.ac.uk) on submission
- ✓ Choose the CC BY licence

Archiving in ORA - 'green' OA at Oxford

The Author makes their work open by publishing (usually in a hybrid journal) and depositing then their accepted manuscript into a repository.

Accepted manuscript (AAM)
The unformatted post-peer review version of your research.

www.bodleian.ox.ac.uk/open-research/open-access-publishing/deposit

Green OA - Embargoes

Publisher applies an 'Embargo' preventing the reading of an OA manuscript in a repository until a specified time period.

The publisher sometimes does not place an embargo!

The ORA team will apply embargoes on deposited items

Once an embargo is over the research is available for posterity

5 minute question break

'Open Compliance' – It's complicated!

REF 2029 guidance available at
openaccess.ox.ac.uk/ref

Acknowledge funder

Declare data

Rights retention?

Manuscript deposit?

(EPMC/OR A)

Green embargo limit?

No payment for Hybrid?

Licence requirement (CC BY)?

Keeping up to date

Sign up to a mailing list in your subject area! Join a 'general' list to receive everything

Go to: <https://forms.office.com/e/Ywhv2cUGMY>

5 things to do after this course

- 1 Sign up to a mailing list to keep up to date
- 2 Get an Elements account and start uploading work to ORA
- 3 Check for funder requirements/watch their policy briefing
- 4 When you publish – check OPF! – how do you open it?
- 5 Attend the 'Logistics' course to learn 'how to'
