

Vocational Training Courses in **Leather & Leather Product Technologies**

CSIR - CENTRAL LEATHER RESEARCH INSTITUTE
Adyar, Chennai : 600 020, INDIA

PROSPECTUS

INDIAN LEATHER SECTOR – A GLIMPSE

Leather Industry occupies a place of prominence in the Indian economy in view of its massive potential for employment, growth and exports. The Indian leather sector meets 10% of global finished leather requirement. There has been increasing emphasis on its planned development, aimed at optimum utilisation of available raw materials for maximising the returns, particularly from exports.

The Indian leather industry employs about 3 million workforces. The leather industrial sector comprises of:

- a) Tanneries (where raw hides and skins are converted into leather)
- b) Factories transforming leather into a variety of consumer products such as footwear, garments, and assorted leather goods such as wallets, passport cases, key chains, handbags and brief cases.

The main production centres for leather and leather products manufacture in India are the following:

- Tamil Nadu – Chennai, Ambur, Ranipet, Vaniyambadi, Trichy, Dindigul and Puducherry
- West Bengal – Kolkata
- Uttar Pradesh – Kanpur, Unnao, Banther, Agra and Noida
- Punjab – Jalandhar

Tamil Nadu accounts for about 40% of India's exports and has about 60% of tanning capacity.

Quality assurance for export having become the immediate need of the leather product sector, trained and skilled personnel hold the key for the future of the Indian leather industry. The demand for highly skilled manpower is expected to multiply manifold.

CSIR-CLRI: IN HUMAN RESOURCE DEVELOPMENT

The Central Leather Research Institute, a constituent laboratory of the Council of Scientific and Industrial Research, enjoys a pivotal role in Human Resource Development for leather. Established in 1948 in the academic village of Chennai, CSIR-CLRI has played a major role in the symbiotic development of the trinity, academy-research-industry. CSIR-CLRI, working with Madras and Anna Universities, has provided education to B.Tech and M.Tech. students in Leather technology & Footwear Science & Engineering and Ph.D. in all disciplines.

CSIR-CLRI is unique among the National Laboratories and takes a direct role in education and training since its inception. CSIR-CLRI is a major International house for leather related training. It is the world's largest leather research body, dedicated to excellence in Leather Science Education and Technology. CSIR-CLRI has always exhibited its global leadership as an international trainer organization catering to the training requirements of the world leather sector. Trainees from around 70 countries all over the world have been benefitted by training at CSIR-CLRI in the area of leather and leather products.

CSIR-CLRI is one of the apex bodies for Human Resource Development in Leather Sector. CSIR-CLRI has been functioning as the National Monitoring Unit (NMU) to monitor the human resource activities sponsored by the Department of Industrial Policy & Promotion (DIPP) (Ministry of Commerce and Industry).

TRAINING: FOR WHOM?

The programmes target individuals who desire to acquire high level professional skills in specific unit operations of leather and leather product construction to function as master technicians or trainers or shop-floor supervisors. The programmes are open to Indian participants.

COURSE STRUCTURE

The vocational courses are practical intensive with 30-35 hours of hands on experience per week. Enough theoretical basis to understand the physical principles in processing is provided through 3-4 contact lectures per week.

MANAGEMENT AND FACULTY

Faculty for the courses is drawn from a vast body of experts from CSIR-CLRI, industry and international bodies. CSIR-CLRI has a well knit management structure on the lines of CSIR laboratories. A separate and dedicated wing of CSIR-CLRI, viz., Centre for Human and Organizational Resources Development (CHORD) provides the necessary management support to these training courses.

SELECTION PROCEDURE

Depending on the number of applicants selection mode will have entrance test and/or Interview. Entrance exam is intended to judge the general aptitude of the candidate.

METHODS OF INSTRUCTION

Instruction methods involve show-how and hands on practice. Field visits and industrial training to provide an awareness of real field conditions will be part of curriculum. Medium of instruction will be in English.

SPONSORSHIP

Established industrial houses are welcome to sponsor candidates of their interest. In the selection modality, a special weightage will be provided to the candidates sponsored by established industries and non-profit making social organizations. However, these candidates will have to pass the threshold in the entrance tests.

ELIGIBILITY FOR APPLYING

- Diploma course : Atleast 50% in 10+2 or Equivalent
P.G. Diploma course : Atleast 50% in Bachelor's Degree in Science with Chemistry as one of the subjects
Maximum age : 30 years as on 1st day of the training session (relaxable in deserving cases)

COURSE FEE : Rs. 40,000 to be paid at the time of admission. The Course fee should be paid through "SBI Collect"
