About the International Code Council

The International Code Council® (ICC®), a membership association dedicated to building safety and fire prevention, develops the codes used to construct residential and commercial buildings, including homes and schools. Most U.S. cities, counties and states choose the *International Codes*®, building safety codes developed by the International Code Council.

Contractor Trades Examination Services

Ensuring building safety in communities through quality license examination services.

ICC Contractor Trades Examination Services can help your agency ensure that workers licensed in construction trades have essential knowledge about building safety codes and standards adopted within your jurisdiction. ICC Contractor Trades examinations meet the highest standards of fairness and defensibility.

With 60 years of experience in the testing business, ICC Contractor Trades Examination Services delivers industry credibility and recognition; an expert staff with extensive knowledge of International Codes® and other model building safety codes; and unparalleled confidence in developing, maintaining, and administering certification and licensure programs.
