

ITM WORLDWIDE

International Trade Management
A worldwide vocational training in trade

ITM Worldwide, is a vocational training in trade designed to build export competence within small and medium sized companies. It provides the expertise, knowledge and network needed to help businesses grow internationally. Engaging some of Europe's most renowned and distinguished professors and trade experts ITM Worldwide offers a unique blend of academic and practical training. As well as giving access to a Virtual Trade Network for lifelong learning, worldwide career and business opportunities. The training results in an International Trade Management Diploma accredited by the International Association of Trade Training Organisations.

GIVES SMALL AND MEDIUM SIZED COMPANIES ACCESS TO THE WORLD MARKET

- An international vocational training in trade designed to build export competence within companies
- Providing the expertise, knowledge and network to help businesses grow internationally
- Creates International Trade Managers, a worldwide profession with attractive career- and business opportunities
- Resulting in an International Trade Management Diploma accredited by the International Association of Trade Training Organisations
- A blend of local seminars and export coaching building an international business plan
- International seminars and business meetings worldwide, a total of 13 days in 6-9 months
- Standardized training modules guaranteeing international quality standard
- A Virtual Learning Platform provides a unique base for communication, networking and learning during training
- An International Trade Network for lifelong learning, career and worldwide business opportunities

ITM Worldwide is an international vocational training in trade turning young academics in small and medium sized companies into Trade Managers. A virtual learning platform makes it possible to communicate, network and keep in touch with colleagues and trade experts in between training modules and afterwards. The training results in an International Trade Management Diploma and access to virtual trade network for life long learning, career and business opportunities.

ITM Worldwide offers a blend of local seminars, individual export coaching, international seminars and business meetings with colleagues and potential customers from all over the world. A total of 13 days in 6-9 months. Standardized training modules developed and held by some of the world most renowned and distinguished professors and trade experts are our quality mark.
